2021 Clery Act geography – COVID-19 information

1. Hotels or other space used by the institution for quarantine:
 - If an institution contracted for new space, or rented space at a hotel, to be used for student quarantine, the space should be included in the institution's Clery Act geography for the period that it was used by students. If the space was reasonably contiguous with the campus, it should be considered both on-campus and an on-campus student housing facility for the period that students were assigned to live there for quarantine. If the space was reserved as a possible quarantine facility, but never used for students, it does not need to be included in the institution's Clery Act geography.

2. Institutional space repurposed for quarantine:
 - If an institution repurposed an on-campus student housing facility as quarantine space, this space should continue to be recorded as an on-campus student housing facility during this time.
 - If an institution repurposed a nonresidential campus facility, this space should be considered an on-campus student housing facility during the time that students were assigned to live there as part of quarantine.
 - If an institution repurposed a noncampus facility as quarantine space, this space should continue to be recorded as a noncampus location during this time.
 - If a state or local agency, or other external group, requisitioned the use of an institution-owned facility for public quarantine or as a temporary hospital facility (not just for the institution's students), this facility should continue to be considered part of the institution's Clery Act geography (either on-campus or noncampus) but would not be considered an on-campus student housing facility during this time.

3. Clery Act geography not used due to COVID-19:
 - An institution's typical on-campus property should continue to be considered on-campus property even if students were not on campus due to COVID-19.
 - An institution's typical noncampus property that remained under the institution's ownership or control should continue to be considered noncampus property even if students were not using the location due to COVID-19.

4. Incidents that occurred on a remote learning platform or while students were not on Clery Act geography:
 - If the perpetrator or victim of a Clery Act crime was located on the institution's physical Clery Act geography, the incident should be counted.
 - Threats, intimidation, stalking, or other incidents that occur through an online platform would only be recorded for Clery Act purposes if the crime meets the definition of a Clery Act crime, and either the perpetrator or the victim was located on physical Clery Act geography at the time of the incident.
 - Students' and employees' private homes are not part of an institution's Clery Act geography unless the institution has a written agreement giving the institution control of that space. Work-from-home agreements do not give an institution control of an employee's home.
