

Loan Exit Counseling

All students who have graduated, dropped below half-time attendance, or have withdrawn from Ulster County Community College need to complete the Exit Counseling for student loans.

1. The Exit Counseling can be completed on-line at www.studentaid.gov
2. Hover over *Manage Loans*
3. Select *Complete Exit Counseling*
4. Log in using your FSA ID

Once the Exit Counseling has been completed, we will receive notification directly from the Department of Education that you have done so.

The Financial Aid Office asks that you complete the Exit Counseling as soon as possible if you haven't already done so. A hold will be placed on your account which prevents you from registering for classes, receiving grades or sending your academic transcripts to other colleges or universities until the Exit Counseling is completed. As soon as we are notified that you have completed this process, we will remove the hold.

The www.studentaid.gov website contains valuable information about managing your student loan repayment. Repayment and deferment options are addressed and a repayment calculator is provided. Please take some time to review this information.
