SUNY ULSTER'S CAREER-ORIENTED CREDIT PROGRAMS

Whether you want to finish a degree you started long ago, change careers, upgrade skills, or get the education you never had a chance to achieve in the past, you'll find SUNY Ulster uniquely positioned to help you fit college into your busy life. Here are eleven programs with exceptional job prospects in our region and beyond.

ANIMAL SCIENCE OFFICE ASSISTANT CERTIFICATE

27 credits

Developed through a close collaboration of SUNY Ulster faculty, regional veterinarians, and licensed veterinary technicians, this program meets the training needs of both students and practicing veterinary professionals.

COMPUTER GAME DESIGN CREDENTIAL

16 credits

If you are interested in designing and developing computer games, this program will set you on that path.

DIRECT CARE PRACTICE CERTIFICATE

18 credits

Get trained as a practitioner who provides direct services and support to individuals, families, and groups in the community. Through academic courses and a practicum provided at a community organization, the program offers tangible ways to gain confidence and competence in specific skill areas identified by potential employers and codified by national performance standards.

ENTREPRENEURSHIP CERTIFICATE

25-26 credits

May be completed on campus or online.

The Certificate in Entrepreneurship is designed to provide students with the skills needed to create, launch, and manage a small business or to work within an entrepreneurial venture.

HUMAN SERVICES A.A.S.

63 credits

This program qualifies graduates for a variety of entry-level positions in public and private sector human services agencies. Specialized courses allow students to take specialized courses and supervised field work in family and children's services, developmental disabilities, mental health treatment, crisis intervention, and gerontology. Students completing this program also earn a Direct Practice Certificate.

CREDIT PROGRAMS

GREEN BUILDING MAINTENANCE & MANAGEMENT A.A.S.

61-63 credits

Gain the skills and knowledge needed to maintain and manage high-performance commercial buildings. Learn current theories and get hands-on training to work with evolving technologies like photovoltaic cells, wind generators, geothermal heating, and HVAC systems.

INDUSTRIAL TECHNOLOGY: MANUFACTURING TECHNOLOGY CERTIFICATE

36 credits

This certificate program prepares individuals to enter the manufacturing workforce by teaching basic skills needed in the use of lathes and milling machines, while also providing the educational background for those students who want to continue into a second year of study in Industrial Technology: Manufacturing or Industrial Design.

MOBILE APPLICATION DEVELOPER CREDENTIAL

16 credits

Gain the skills to become a mobile application developer for tablets and smartphones using both the Android and Apple IOS Operating Systems.

NETWORK ADMINISTRATOR CERTIFICATE

18 credits

This program answers a need in the local region from educational and financial institutions as well as small business for people with the basic skills to effectively manage microcomputer networks. SUNY Ulster is designated as a Regional Academy for Cisco Systems training and a member of the Microsoft IT Academy program, and students have a choice in which training they wish to pursue.

POLICE BASIC TRAINING CERTIFICATE

30 credits

This certificate program is organized to include the learning objectives mandated by the New York State Division of Criminal Justice Services (DCJS) state-approved police academy curriculum. The courses must be completed by full-time study. Classes may be given during the days, evenings, or weekends.

WEB APPLICATION DEVELOPER CREDENTIAL

16 credits

Designed to prepare students for a career in web application development, according to the expressed needs of local educational and financial institutions and small businesses of all types.
