

● JUNIOR TENNIS CAMP

Ages 8-16 • June 26-30 • 9am-3pm • SRC

Enjoy a tennis experience for all levels from beginner to high school varsity player that is both fun and educational. Morning instruction includes the teaching of strong tennis strokes and precision footwork, both of which comprise the backbone of the game. Drills are incorporated to promote the development of these skills. In the afternoon, athletes are taught strategy, technique, and sportsmanship by means of challenging games and matches. The staff is fully committed to individual attention (coach-to-athlete ratio is 1:5) within the context of group learning and believes that this learning experience will last a life time.

GAME DESIGN CAMP INTERMEDIATE

Ages 11-15 • July 2-6 • 9am-4pm • KSU

Using the free version of Construct2 and Spriter, students will see how cool it is to create animated characters and implement in a 2D game! Starting with planning the game story, students will progress to creating the characters and finally implementing those animated sprites in game. Lots of problem solving and challenges await you! Prerequisite: Experience in game design.

● GAME DESIGN & CODING CAMP

Ages 10-14 • July 30-August 3 • 9am-4pm • KSU

This camp offers a fun and creative introduction to coding through video game design. It appeals to campers with an interest in technology, digital arts, video game design, and programming. Using Kano's Pixel Kit, students will learn basic coding for building a game and a variety of cool coding projects! Using SCRATCH, a popular program for creating interactive and animated projects, campers make their storyboards come alive as a complete working game that everyone can play!

● ROBOTICS & PROGRAMMING CAMP

Ages 10-14 • August 6-10 • 9am-4pm • KSU

This camp offers a hands-on approach to learning robotics. This camp appeals to campers with an interest in robotics and programming. Using SCRATCH, a popular program for creating interactive and animated projects and a Makeblock DIY mBot Ranger Transformable STEM Educational Robot Kit, students build the robot and then program it to accomplish many tasks!

● FASHION DESIGN CAMP

**Ages 8-11 & AGES 12-15
July 9-13 • 9am-4pm • SRC**

In this boot camp, you will spend half the day in the sewing lab, which comes complete with cutting tables, dress forms, sewing machines, sergers and industrial irons, to learn sewing and basic construction. You will create an original project. The other half of the day will be in the drawing studio where you will learn how to construct the fashion figure and how to draw and design skirts, blouses, dresses and pants to create a small apparel collection complete with mood board, fabrics and illustrated in color. You don't need to know how to sew or draw. The instructor-to-camper ratio is 1:5.
